

How many free screenings am I allowed in a year?

Last Modified on 12/04/2023 7:57 am CAT

Every client on LifeReturns® gets a free reassessment screening every calendar year during the reassessment period. Once this has been used clients are more than welcome to do as many screenings as they want. However, this will incur a small fee (determined from time to time) to purchase a voluntary screening. The cost of the first voluntary reassessment will be waived if it is done before the first compulsory reassessment date, i.e., 1 January 2025.
