

How much does it cost to participate in LifeReturns®?

Last Modified on 13/04/2023 10:32 am CAT

The initial and the annual compulsory reassessment digital screenings are free of charge.

We will also provide clients with an additional free voluntary reassessment screening if they feel that they can improve on their initial screening results, provided they use this free screening before the first compulsory reassessment.

Clients will soon have the option to request as many voluntary screenings as they like, at a small fee per screening, on Momentum's client portals such as momentum.co.za. Until then, they will need to contact the LifeReturns® contact centre to send them a reassessment screening link.
